SUMMARY

Computer Engineering graduate currently pursuing a Master's in AI and Human-Centered Computing. Possesses a versatile technical background spanning mobile/web development, Unreal Engine, and advanced data management. Specialized in virtualization and cloud infrastructure. A proactive problem-solver with strong leadership and teamwork capabilities demonstrated across a variety of diverse and formative environments.

TECHNICAL SKILLS – GAINED THROUGH HANDS-ON PROJECTS SHOWCASED ON GITHUB

Core Technologies	Cloud DevOps & Infrastructure	Tools & Frameworks
C++, C, Python, PHP, Kotlin, JavaScript, HTML, CSS, SQL/NoSQL	Docker Swarm, Ansible, Vagrant, GNS3, Terraform, Kubernetes, Traefik, Prometheus, Grafana	Linux, Unreal Engine 5.2, Git&GitHub

PROFESSIONAL EXPERIENCE

Master Thesis – Automated Semantic Reconstruction of IT Network Infrastructure: From Raw Logs to Ontology-driven Knowledge Graph

- Tech Stack: Python, GNS3, Docker, Ansible, GraphGB, Protégé, OWL2, RDF
- Co-engineered an automated framework to reconstruct IT infrastructure Knowledge Graphs from raw logs, driven by a custom ontology for automated inference.
- Co-architected a stochastic, tree-based generator to simulate virtualized environments and collect discovery data.
- Validated the framework's performance by comparing the reconstructed Knowledge Graph against the simulated ground-truth infrastructure.

Python programming instructor | Feb 2025 – April 2025

- Mentored high school students of diverse backgrounds in Python fundamentals, publishing all teaching materials and exercises on GitHub.

Digital transformaion & technical support | Jan 2024 – Present

- Handled corporate projects spanning AutoCAD 3D design, PLC development, manual machining, and digital transformation.

Volleyball coach | Sep 2021 – June 2026

- As a Certified Smart Coach, organized summer camps and led training sessions for diverse youth categories (Volley-S3 to U16), fostering teamwork and strategic planning.

Awards and side activities

- 1st place Cyber Security Hackathon in Genoa (Hack4Ge)
- UniGe Voglio fare il manager (2024)

EDUCATION

University of Genoa | 2024 – Present

Master degree of Computer Engineering: Artificial Intelligence and Human-Centered Computing

- Joint Master Thesis Project | Leonardo S.p.A

University of Genoa | 2021 – 2024

Bachelor of Computer Engineering

- 110/110 cum laude (GPA: 3.9)

Da Vigo Nicoloso High School | 2016 – 2021

Scientific high school diploma

- 98/100
